Manager Thoughts FY2021

Technology continues to allow MVP to be a pioneer in energy conservation. Conservation of energy allows more opportunities for savings for all customers of MVP.

We are committed to selling the most reliable, cost effective, and safe electric power for our customers.

We look forward to more savings and success passed on to our customers through the companies increased maintenance efficiencies.

Keeping the lights on for you!

Jean Matt
General Manager

Utility Board members are appointed by the Confederated Salish & Kootenai Tribal Council for three year terms. The Board and General Manager recommend major changes to the Tribal Council who, in turn, review and present those recommendations to the Bureau of Indian Affairs for final approval.

Cindy Benson and Gordon Fyant have served on the Board since 1997 and are valuable resources of the utility industry for both historical trends and in planning for the future. Chuck Courville has been a board member since 2019 while Gene Sorrell and Dick Erb joined the group in 2020. Chuck, Gene and Dick are all long time residents of the Mission Valley and have proven to be quick studies in the electrical industry.

Mission Valley Power is privileged to work with seasoned Board members.
The Consumer Council consists of seven members who must live within MVP’s service area. At least one appointee of this group, but no more than two, must be a tribal member. Established as “grass roots” representatives, two members represent Lake County, one represents Sanders County, one represents Missoula County, and three are “members at large”.

This Council serves as a liaison between customers and utility staff regarding either complaints or praise. They also provide feedback to the utility and Board prior to establishing new or changed procedures or policies that affect customers, as well as rate changes.
Customer Service Dept.

Accomplishments for Fiscal Year 2021

Customer Service continues to look for ways to enhance our service to the customer. A KIOSK machine was installed in the Ronan Valley Bank and is available 24/7 as are the machines in Arlee and Hot Springs. Our goal is to have a machine in St. Ignatius and Polson in the future.

Long time employee, Geri Hall retired in April. We miss her and wish her well on the next chapter of life. MVP also chose not to fill her position at this time. Duties were divided among the remaining 4 Customer Service Representatives.

We continue to keep the doors closed to walk-in services due to continued COVID concerns. To adapt we have shifted gears in the office as our phone calls have increased exponentially.

Accomplishments for Fiscal Year 2021

• Initialized and assigned 680+ work orders throughout FY21 including customer and MVP projects.
• Procured equipment for system improvements and changes according to the Construction Work Plan and Sectionalizing Study.
• Purchased two 69kV transmission switches to improve system reliability.
• Purchased fuses and electronic reclosers.
• Ronan Substation
  Purchased remaining substation material. Construction to take place during FY22.
• Ronan West Substation
  Purchased remaining substation material to tie into new Ronan Substation.
• Polson Substation
  Purchased and installed transformer cooling fans to increase substation capacity.
• Kerr Substation
  Purchased one 115kV circuit breaker and two 69kV circuit breakers to replace outdated equipment.
• Initiated procurement of equipment for a new TWACS metering system that will be implemented and installed system wide as a 4-phase project. Phase one implementation is ongoing.
• Attended training as needed and available.
• Updated and maintained improvements to MVP mapping documents.
• Field inventory continues to be verified to increase the accuracy of MVP’s mapping database.
• The National Electric Safety Code is applied to all MVP work orders issued and spot checks are used...
Accomplishments for Fiscal Year 2021

- Replaced 80,257 feet of primary cable, (15.2 miles), and 9,482 feet of secondary cable, (1.79 miles). The underground cable used for new services consisted of 43,635 ft. (8.26 miles) of primary wire and 26,706 ft. (5.05 miles) of secondary underground wire was used during the installation of new services.
- MVP has 2 apprentice linemen that are completing the final year of their 4 year apprenticeship, plus 6 new apprentice tree trimmers that are just getting started in their 2 year apprenticeship.
- 4,091 poles were inspected in our test and treat utility pole inspection program.
- A total of 468 poles were placed in FY2021. This breaks down to 11.31 miles of new poles used for new services and 13.31 miles of new poles used to replace the older structures.
- Responded to 428 outages that affected 31,556 customers with the average outage lasting 3.23 hours.
- January and August were the months that brought the longest outages. The average outage time excluding these two months was 2.01 hours.
- Processed 299 new transformers, tested/repaired 64 transformers, and recycled 126 transformers for payments totaling $10,083.00.
- Recycled 20 capacitors at a cost of $1480.00 to MVP.
- MVP tree crews have trimmed 1,472 spans of power line including 1,107 of primary and 365 of secondary wire, and have delivered a total of 272 loads of wood chips to customers or the landfill.
- All area lights at MVP have been upgraded with LED lights replacing high pressure sodium lights this year.
- MVP locators have responded to 2,914 underground locate tickets.
Support Services Department

Accomplishments for Fiscal Year 2021

In the Support Services Department, which encompasses Billing, Accounting, Meter Reading, Automated Meter Reading, Mechanic’s Shop, Facility Maintenance and Warehouse/Purchasing, it was a challenging year mostly related to the COVID-19 pandemic. The cost of materials to build lines tripled and shipping delays of products kept our purchasing staff hopping. The relationships honed with vendors over the years proved invaluable when our stock levels got to a dire level. We managed to keep material available to keep our crews busy and meet our customer’s needs. All this was done with the retirement of our long-term Warehouse Manager!

The Mechanic’s shop dealt with many of the same issues. Getting the proper parts to repair our vehicles proved difficult as did purchasing new vehicles.

The Billing Department, Meter Readers and AMR Technician are anxiously awaiting the new metering system. Much work has been accomplished towards this goal thanks to the Engineering and Billing Department collaborating on the project.

A cost of Service and rate study was contracted out to a third party to make sure our rates are appropriate to cover costs and that each rate class is paying their fair share.

The Support Services Department has embraced paperless systems and the efficiencies that come with it. The paperless initiative has saved us money in reducing costs of printing and copying, reduced the number of errors in data entry and staff time obtaining authorizations. With changes in technology, we are constantly looking for other ways to save money, so we can pass the savings on to the customer.

Although 2021 was challenging, we are thankful that our employees stayed safe and healthy, and we are looking forward to a bright new year.

Financial Highlights

FISCAL YEAR 2021
OPERATING STATEMENT

INCOME
TREASURE/OTHER INT $12,823.00
BPA REIMBURSEMENT - ADMIN & LIGHTING $49,422.00
SALES REVENUE $32,697,927.00
MISC. REVENUE $1,670,732.00

TOTAL CASH RECEIVED $34,430,904.00

EXPENDITURES
PAYROLL $10,508,484.00
MAJOR CONSTRUCTION/WAREHOUSE $1,945,473.00
CAPITAL - GENERAL PLANT $436,625.00
MAINTENANCE - DIST/TRANS $227,078.00
GENERAL OPERATING/ADMINISTRATIVE $3,339,441.00
POWER PURCHASES $16,606,574.00

TOTAL CASH EXPENSED $33,063,675.00

NET INCREASE (Operating Reserve) $1,367,229.00
Accomplishments for Fiscal Year 2021

• Mission Valley Power’s safety department continues to strive for Zero Accidents/Incidents in a FY2021.
• These goals are pursued by accident investigation completed by the safety officer, operations superintendent, safety committee and accident investigation team members. Safety training is offered to all MVP employees to meet and exceed OSHA requirements.
• Employee in class training for FY2021 was suspended due to COVID-19 and other alternatives such as Zoom and Microsoft teams have been used to meet the training needs of MVP.
• MVP is dedicated to public electrical safety and awareness and has continued performing table top safety demonstrations.
• In service training on tools and equipment still remains a priority for employees at MVP.
• All hazardous conditions and access issues are continually being reviewed and updated.
• Continued support to Tribal Emergency Response Committee (TERC) and Lake County Local Emergency Planning Committee (LEPC).
• All safety forms and policies are reviewed for accuracy and compliance issues.
• MVP safety manual has been updated and approved by the safety committee and utility board.
Accomplishments for Fiscal Year 2021

MVP Customers worked to save 2,190,137 kilowatt hours of electricity. The Energy Conservation Programs that resulted in the greatest kWh savings were:

MVP completed conversion of over 2,700 area and street lights for 1,892,160 kwh savings.
Two Energy Star / Northwest Energy Efficient Manufactured Homes and one site built Montana Home were placed in MVP’s service area during FY21, a minimum of 15% more energy efficient than Montana State Building Code.

$310,937 was returned to MVP customers for Energy Conservation Measures during FY21.

The following projects used BPA Engineers during FY21: Polson Waste Water Treatment Plant, CSKT St. Ignatius Waste Water Treatment Plant, & Flathead Lake Cherry Growers.
